

Rock Solid Repair for the Stone and Marble Industry

Professionals in the stone and marble industry need dependable electrospindles for cutting, milling, sawing, shaping, and polishing applications. CNC machines used for stone and marble processing operate under punishing conditions that put them at risk of failure and make them vulnerable to breakdowns that threaten productivity and profitability. That's why stone and marble artisans depend on Precision Drive Systems (PDS) to quickly restore their spindles to like-new condition to enhance cut quality and overall performance.

EXPERT MARBLE AND STONE SPINDLE EXPERIENCE AND SUPPORT

Whether it's a spindle from one of the industry's leading brands or a custom-engineered spindle for a specific marble and stone machining application, PDS has your new spindle needs covered. Regarding after-sales service and support, our factory-trained engineers and technicians have successfully repaired and rebuilt more than 40,000 spindles in a wide range of industries to the same or better-than-new OEM specifications.

KEEPING PRODUCTION MOVING

PDS provides a wide variety of products and services for the marble and stone industry:

- > **Spindle Repair Services and Troubleshooting** - Replacing the faulty elements causing a problem
- > **Spindle Rebuild Services** - Refurbishing your spindle to run and perform like new
- > **Spindle Retrofit Services** - Upgrading components and technologies to maximize reliability, power, torque, and speed
- > **Spindle Replacements** - Providing new OEM spindle with matching specifications or one with more capabilities

NEW SALES AND SERVICE FOR THESE LEADING SPINDLE BRANDS AND OTHERS

SPINDLE EXPERTISE FOR A VARIETY OF APPLICATIONS

PDS spindles are engineered to work well with the materials used most often in the stone and marble industry.

Contact PDS today to schedule a spindle repair or to request a new spindle specifically tailored to your marble and stone operation.
